

central ordering

Centralised. Harmonised.

If your organisation is large or spread over multiple locations, ordering equipment and managing your inventory can be an ongoing and complex challenge. This is where you can benefit from a harmonised ordering process that works across your footprint.

freemove
the Power of Alliance

With the collective strength of four leading mobile operators, FreeMove helps you consolidate the management of your mobile services with a single and flexible ordering tool available in multiple countries. You'll have a complete international overview on orders and inventories, improving cost control over your offices and affiliates.

FreeMove Central Ordering is specifically designed for multinational companies looking to simplify procurement through a more centralised strategy.

Order and manage your mobile communication components quickly and easily.

What is FreeMove Central Ordering?

You can access FreeMove Central Ordering via a standard web browser, with no additional software installation required. Individual access can be set up securely via https protocol with username/password authentication. FreeMove Central Ordering gives you the following features:

Order management and reporting

- Create, change or cancel individual subscriptions and tariff options
- Order hardware, accessories and SIM Cards individually or in bulk
- Familiar shopping cart functions and order status updates
- Reports including numbers of orders, spending and fulfilment times, downloadable in XLS, CSV and PDF formats
- Company structure to reflect cost centres and company units
- Flexibility in local language, currency, delivery addresses and delivery modes

Inventory management

- Keep track of your complete inventory
- Full overview of tariff options and contract details for each mobile number
- Details linked to each single SIM Card, including hardware

What does this mean for you?

With an easy-to-use interface and the ability to customise the tool per user group, you'll have full control over your ordering and inventory management processes.

Not only will you have an overall view of your fleet, harmonised ordering also helps you reduce the burden on your administration resources.

FreeMove Central Ordering is available in France, Germany, Austria, Spain, Belgium, Netherlands, Switzerland, Portugal and the UK and will soon be available across our entire footprint.

The FreeMove alliance

FreeMove is the world's leading mobile telecommunications alliance, working to help multinational companies streamline the management of their mobile services. Formed in 2003, the alliance combines the capabilities of Orange, Telecom Italia, Deutsche Telekom and TeliaSonera along with their strategic partners. FreeMove provides seamless international mobile services, harmonised commercial arrangements, dedicated account support and telecom expense management. This global coverage and local support means companies around the world can manage their mobile fleet more efficiently through the Power of Alliance.
